or-dél, -dél; *generally neuter, but an apparently fem. acc. pl.* ordéla *occurs*, L. Edg. C. 24; Th. ii. 248, 28. (Cf. *O. H. Ger.* which has fem. and neut. forms.) In the sense of *judicial decision, judgment* the word is used by *O. Frs. O. Sax. O. H. Ger.* (v. Richthofen, the Heliand and Graff), but in *A. Sax.* it is found only in the special sense, which belongs also to the *O. Frs.*, of a decision which follows an appeal to the Deity. The ordeal was thus connected with religion, and attended by religious ceremonies. In L. Ath. i. 23; Th. i. 210, 26, it is said with respect to the person who is to undergo the ordeal 'féde hine sylfne mid hláfe and mid wætere and sealte and wyrtum ǽr hé tó gán scyle, and gestande him mæssan dæra þreora daga (*the three days preceding the ordeal*) élcne, and geoffrige tó, and gá tó húsle ðý dæge ðe hé tó dam ordéle gán scyle, and swerige ðonne ðane áþ, ðæt hé sý unscyldig ðære tihtlan ǽr hé tó ðam ordéle gá.' Before taking the Eucharist and going to the ordeal a solemn form of adjuration was addressed to the person concerned, that unless he was conscious of innocence he should desist. v. Rtl. 114, 13–23. The further proceedings in connection with the ordeal by hot water or by hot iron are detailed in L. Ath. iv. 7; Th. i. 226, 8. After the fire to be used in heating was carried into the church, none were to enter but the priest and the accused. When the iron was hot or the water boiled, two men for the accused, two for the accuser, were admitted, to see that the proceedings were fairly conducted. When hot water was employed, if it were a case of *ánfeald tihtle*, the hand was plunged in up to the wrist, if of threefold, up to the elbow. When the hot iron was used, a weight of one pound or of three pounds, according to the case, had to be carried nine feet. The hand was then sealed up, and its condition, when unwrapped at the end of three days, determined the guilt or innocence of the accused. See also L. Ath. i. 23; Th. i. 212, 2–10. Further reference to the difference in degree is made in Ath. iv. 6; Th. i. 224, 13: L. Edg. H. 9; Th. i. 260, 18. Among those who were to be subjected to this form of trial are mentioned convicted perjurors, who after conviction are not 'áþwyrðe ac ordáles wyrðe,' L. Ed. 3; Th. i. 160, 18–21: the man who was charged with plotting against his lord, or with being guilty of 'cyricbryce,' or with practising witchcraft and similar illicit arts underwent the threefold ordeal, L. Ath. i. 4–6; Th. i. 202, 1–17; and the same trial was appointed in the case of incendiaries, L. Ath. iv. 6; Th. i. 224, 11–19, and of coiners, L. Ath. i. 14; Th. i. 206, 17–25: L. Eth. iii. 8; Th. i. 296, 12–16. The ordeal is also mentioned as being the only method of meeting an accussation in a case between English and Welsh, 'ne stent nán ðéer láð æt tihtlan búte ordál betweox Wealan and Englan,' L. O. D. 2; Th. i. 354, 1–2. The ordeal must take place in a king's burgh, 'Ælc ordál beó on ðæs kyninges byrig, L. Eth. iii. 6; Th. i. 296, 4, and upon fastdays and festivals could not be used, 'ordél and áþas syndan tócwedene freólsdagum and rihtfæstendagum,' L. E. G. 9; Th. i. 172, 10: L. Eth. v. 18; Th. i. 308, 24–27: vi. 25; Th. i. 320, 24–27: L. Edg. C. 24; Th. ii. 248, 27. or-yldu. v. or-ildu.

ōs *a divinity, god*, the Anglo-Saxon form of a word whose existence in Gothic is inferred from a passage in Jornandes, 'Gothi proceres suos quasi qui fortuna vincebant non pares homines sed semideos, id est, *Anses* vocavere.' The Icelandic, which throws out *n* before *s*, as the Anglo-Saxon does (cf. *Icel.* gās: *A. S.* gōs), has *āss; pl. æsir*, a term which has an application in the opening chapters of the Yngling Saga very similar to that attributed to *anses* among the Goths: Odin, Thor, and other personages of the Scandinavian mythology are the Æsir. Particularly apparently did the term refer to Thor, so that the proper name Ás-björn is used as the equivalent of Þor-björn. As the first part of Scandinavian proper names it occurs frequently, and it is in the same dependent character that it mostly, if not exclusively, is found in Anglo-Saxon and O. H. German. Thus Ós-beorn, Ós-lāc, Ós-wine, Ós-weald preserve the word which is found in Ás-björn, Ás-lākr, Ás-mundr, and this is certainly the independent *āss*. The *O. H. Ger.* Ans-gār shews the same word. Whether *ōs* in the sense of *god* occurs as an independent word is doubtful. It is the name of the Rune ᚬ, which in the Runic poem is accompanied by the following verse:—

'Ós byþ ordfruma ælcre spræce
Wísdómes wraðu and witena frófur
And eorla gehwam eádnis and tōhyht.'
Runic pm. Kmbl. 340, 5–10; Rún. 4.

Kemble translates ós by mouth (as if the Latin word had been taken?), but if the verse is old, the reference might be to Woden. Cf. the account of Óðinn in the Ynglinga Saga: þar þóttust Óðins menn eiga alt traust, er hann var, c. 2. Óðinn var gōfgastr af öllum, ok af honum nāmu þeir allir þróttirnar: því at hann kunni fyrst allar ok þó flestar. . . . Hann ok hofgoðar hans heita ljóðasmiðir, því at sú þróttr hófst af þeim í norðrlöndum, c. 6. See also c. 7, and Salm. Kmbl. p. 192: Saga mē hwā ærost bōcstafas sette? Ic ðē secge Mercurius (= *Woden*) se gygand. Further in Lchdm. iii. 54, in a charm, occurs a genitive pl. *ōsa*:—Gif hit wǽre ēsa gescot, oððe hit wǽre ylfa gescot, oððe hit wǽre hægtessan gescot, nū ic wille ðīn helpan. Ðis ðē tō bōte ēsa gescotes, &c. . . . But though on the comparison of other forms, a nom. pl. ōs might be inferred for *ōs*, the change of vowel would not occur in the genitive, which should be *ōsa*. *Ēsa* would point to a singular ēs (cf. ēst; *Goth.* ansts). The meaning however of the word is that given to *ōs*. See Grmm. D. M. p. 22.

Rôme-burh, -scot. v. Rôm, Rôm-gesceot.

Rôm-feoh; *gen.* -feós; *n. Peter's pence.* [William of Malmesbury attributes to Ethelwulf the institution of this tax: 'Ethelwulf went to Rome (v. Chron. 855) and there offered to St. Peter that tribute which England pays to this day,' bk. 2, c. 2; but in the earlier and similar payment by Offa, established in 787, may probably be seen the origin of the *Rômfeoh* in England, v. Stubbs, Const. Hist. i. 230. The Chronicle several times during Alfred's reign contains the notice that 'Wesseaxna ælmessan' were sent to Rome, but the first notice in the laws of Rômfeoh occurs in the agreement between English and Danes, to which his son Edward was a party: 'Gif hwâ Rômfeoh forhealde gylde lahslit mid Denum, wîte mid Englum,' Th. i. 170, 2. The penalty, which is not here stated, was a heavy one, as will be seen from the passages given below. There is no mention in these of any being exempted from the contribution on the score of insufficient means, but in the laws of Edward the Confessor, in that which treats 'de denario Sancti Petri qui Anglice dicitur Rômescot,' it is said: 'Omnis qui habuerit .xxx. denariatas vive pecunie de suo proprio in domo suo, lege Anglorum dabit denarium Sancti Petri.' Further with regard to the time of payment it is enacted: 'Iste (denarius) summoniri debet in festivitate sanctorum Apostolorum Petri et Pauli, et ultra festum Sancti Petri ad Vincula non detineatur,' Th. i. 446. So too in the laws of William I: 'Cil ki ad aueir champestre xxx. deñ vaillant deit duner le deñ sein Piere,' Th. i. 474. And see note on p. 170. See too the laws of Henry I: 'Romfech in festo Sancti Petri ad Vincula debet reddi,' Th. i. 520. v. Ducange s.v. Denarius S. Petri.]:—Wê bebeódaþ ælcum cristenum men ... Rômfeoh ... sáwel-sceatt, es; *m. An ecclesiastical due, to be paid for every deceased person to the clergy of the church to which he belonged, in consideration of the services performed by them in his behalf.* It was to be paid before the funeral rites were completed, though the regulation would hardly be carried out in cases where grants of land were made. It appears to have been one of the objects of the early gilds, to provide for the payment of this fee:—Sáwlsceat *vel* syndrig Godes líc *dano* (*dona?*), Wrt. Voc. i. 28, 44. The passages dealing with the subject in the Laws are the following:—Ic wille ðæt mīne gerēfan gedōn ðæt man āgife ða ciricsceattas and ða sáwlsceattas tō ðām stōwum ðe hit mid riht tō gebirige, L. Ath. I. prm.; Th. i. 196, 9. Gelǽste man sáwlsceat (sául-, MS. A.) æt álcan cristenan men tō ðam mynstre ðe hit tō gebyrige, L. Edg. 1, 5; Th. i. 264, 24. And sáulsceat is rihtast ðæt man symle gelǽste æt openum græfe; and gif man ænig líc of rihtscriftscíre elles hwǽr lecge, gelǽste man sáulsceat swá ðēh intō ðam mynstre ðe hit tō hýrde, L. To the same effect it is said in Wulfstan's Homilies:—Eác wē lǽraþ ðæt cristenra manna gehwylc understande, ðæt hē æfter forþsíðe būtan sáwulsceatte ne licge on mynstre, ac gelǽste man á ðone sáwelsceat æt openum pytte, 118, 4–7. Sáulscat is rihtast ðæt man gelǽste aa æt openum græfe, 311, 12. The *sáwelsceat* is sometimes determined in amount by the will of the deceased:—Ic gean intō Élig . . . ðǽr mīnes hlāfordes líchoma rest, ðara þreó landa ðe wit geheótan Gode . . . and ðes beáhges gemacan, ðe man sealde mīnum hlāforde, tō sáwlescēattе, Chart. Th. 524, 14–30. See too Shru. 159, and Turner's Anglo-Saxons, bk. vii. c. xiv. Kemble, Cod. Dip. i. lxii, remarks that in lands leased by the Church, and exclusively in such, there is frequently a stipulation for the payment of sáwelsceat. For the practice in the case of gilds, see Chart. Th. 609, 10–18:—Æt álcum forðfarenum gildan æt álcum heorþe ānne penig tō sáwulceote, sē hit bonda, sē hit wīf, ðe on ðam gildscipe sindon; and ðat sáwulgesceot sceulon ða canonicas habban, and swilce þēnisce dōn for hig swiloe hig āgon tō dōne.

The word occurs in the passage that defines the distance to which the king's 'grið' extended, but the origin of the phrase, of which it forms part, is not evident:—Ðus feor sceal beón ðæs cinges grið fram his burhgeate ðēr hē is sittende on feówer healfe his, ðæt is, .iii. mīla, and .iii. furlang, and .iii. æcera brǽde, and .ix. fōta, and .ix. scæfta munda, and .ix. berecorna, L. As the name of a measure of about six inches the phrase continued to exist. Stratmann gives *schaftmonde*, Nares cites a passage from Harrington's Ariosto in which *shaftman* occurs; in Ray's Collection (1691) *shafman, shafmet, shaftmant* is explained 'the measure of the fist with the thumb set up.' v. also Halliwell's Dict., and Jamieson's, s.v. *schaftmon, shathmont*. Kmbl. 593; An. 297. II a. as the name of an English coin the word is found in the form *scætt* in the laws of Ethelbert of Kent. It is inferred from a comparison of passages in these that the value of the *scætt* in Kent was one-twentieth of a shilling, v. Thorpe's Glossary. The *sceatt* is also mentioned in the Mercian law, Th. i. 190, 5, where '30,000 sceatta' is equivalent to '120 punda.' This would give 250 sceatts to the pound. In the Northern Gospels *dragmas decem* is glossed by 'fīf sceattas teásīdum,' while the West-Saxon version has 'tȳn scyllingas.' If the sums here given may be regarded as equal, the *scætt* would be worth a West-Saxon penny, the value which it appears to have in the Mercian law. The coin then seems to be of different values in Kent and in the more northern parts of England. [*Goth.* skatts ἀργύριον, δηνάριον, μνᾶ: *O. Sax.* skatt *money, property, piece of money*: *O. scilling, es; *m.* I. as a denomination of English money (uncoined), *a shilling.* The shilling appears to have been of different values in different parts of the country; in Wessex five pennies make a shilling: Fīf penegas gemacigaþ ǽnne scillinge, Ælfc. Gr. 50; Som. 52, 8: and with this statement agree several passages of Henry I.'s Laws, e. g. c. 93, §§ 3, 19, where unus solidus = v denarii, duo solidi = x denarii. In Mercia four pennies go to the shilling. According to Mercian law (Th. i. 190) the ceorl's wergild is 200s., the thane's six times as much, 1200s., the king's, which is six times the thane's, is £120; so that 7200s. = £120 × 240*d.*, i.e. the shilling is four pennies. With this agrees L. W. i. 11; Th. i. 473, where it is said: Solidum Anglicum quatuor denarii constituunt. In the Norman time the shilling is twelve pennies. This reckoning seems to be taken in earlier times. v. riht-scilling and Ex. 21, 10. The word is of constant occurrence in the Laws and Charters; from the latter the following passage may illustrate the point that the shilling was a denomination of value, not a coin: Biscop gesalde six hund scillinga on golde, Chart. Th. 90, 21. It also occurs as a weight: Genim of ðysse wyrte petroselini wyðe smæl dust ānes scillinges gewihte, Lchdm. i. 240, 11. II. as denoting foreign money the word is used to translate various words:—Scylling *numisma*, Wrt. Voc. i. 57, 30. Scilling *obelus*, ii. 63, 68: *stater*, Mt. Kmbl. Rush. 17, 27. scip-fylleþ *the private jurisdiction exercised over a group of three hundreds.* The word occurs in a charter of Edgar granting to Bishop Oswald certain privileges connected with three hundreds, where in reciting the request that had been made to the king it is said: 'quatinus posset ipse (Oswald) cum monachis suis unam naucupletionem, quod Anglice scypfylleð dicitur, per se habere.' The grant of the request is then stated: 'Ego Eadgarus Oswaldo episcopo annuo et dono huius libertatis priuilegium . . . ut ipse episcopus cum monachis suis de istis tribus centuriatibus . . . construant (constituant, Chart. Th. 214) unam naucupletionem, quod Anglice dicitur scypfylleð oððe scypsócne, in loco quem ob eius memoriam Oswaldeslaw deinceps appellari placuit, ubi querelarum causae secundum morem patriae et legum iura iure discernantur; habeatque ipse episcopus debita transgressionum . . . et omnia quaecunque rex in suis hundredis habet,' Cod. Dip. Kmbl. vi. 240. The connection between the sense in which the word seems to be used in the charter and the meanings of the two parts of the compound may perhaps be found in the entry under the year 1008 in the Chronicle. It there apparently states, that from every three hundred hides one ship should be furnished to the national fleet. v. Stubbs' Const. Hist. i. 105, and cf. Kemble's Saxons in England, i. 255. The word *fylleþ* occurs in the compound *winter-fylleþ*, q. v.; cf. also *Icel.* skip-sókn *a ship's crew.*

Kemble says: 'Sócn is *inquisitio*, the preliminary and initiative in Sacu, in other words the right of investigating, necessary to and a part of power of holding plea,' Cod. Dip. Kmbl. i. xlv. But from a Latin version of a charter it would seem that *sócn* was the power of *seeking* or levying fines; the English 'Ic an heom đæt hý habben saca and sócna' is rendered by 'cedens ut habeant privilegium tenendi curiam ad causas cognoscendas et dirimendas lites inter vasallos et colonos suos ortas, cum potestate transgressores et calumniae reos mulctis afficiendi easque levandi,' iv. 202, 7. stōc (stoc ?). A word occurring mostly in local names, either alone or in compounds. The meaning seems, like that of *stōw*, to be *place* (in the first instance perhaps a place fenced in, cf. (?) staca), and both words remain now only as names of places, *Stoke, Stowe*, or as parts of such names, Basing*stoke*, Tavi*stock*, Walthams*tow*. As may be seen from the Index to the Charters, Stōc occurs frequently, some of the references are here given:—Ðis is ðara þreora hīda and .xxx. æcera bōc æt Stōce, Cod. Dip. Kmbl. iii. 190, 9: 34, 12. Tō Stōce, 203, 21. Intō Stōce, 123, 8. In loco, qui celebri a soliculis nuncupatur æt Stōce uocabulo, 19, 32: 33, 27. (With these two passages may be compared the following:—Apud locum ubi uulgari dicitur nomine æt Stōwe, 323, 32.) In Stōce . . . in Sūthstōce, 75, 25, 33. As an instance of a compound in which the word occurs may be given the following:—Sihtrīc abbud on Tæfingstōce, vi. 196, 1. Hī Ordulfes mynster æt Tæfingstōc (Tefingstōce, MS. E.) forbærndon, Chr. 997; Erl. 134, 14. [Crist inn oþre stokess nemnneþþ þa þoostless hise breþre, Orm. 15694.] v. stōc-līf, -weard, -wīc.

sulung, e; *f.* A Kentish word for a certain quantity of land, derived, like *carrucata*, from a name of the plough; from its origin it might mean *so much land as could be cultivated by one plough*. From the first two passages given below it would seem that the *sulung* was equivalent to two hides (*manentes*), and later a *solanda*, which is probably the same word, is said 'per se habere duas hidas.' v. Seebohm, Vill. Comm., p. 54. But perhaps it may be inferred that both hide and *sulung* were considered as on the same footing as regards the plough. Thus to the *gebúr* with his *gyrd landes*, i. e. one quarter of a hide, are to be given two oxen, L. R. S. 4; Th. i. 434, 23, while a gift of half a *sulung* is accompanied by the further gift of four oxen, Chart. Th. 470, 9–14. v. Seebohm, pp. 138–9, and generally. In the Domesday Survey of Kent the assessment was given by *solins*, and the word remained in use. v. Pegge's Kenticisms, s.v. *salling*:—Aliquam terrae partiunculam, hoc est duarum manentium . . . ritu Cantiae ðn *sulung* dictum, Cod. Dip. Kmbl. i. 249, 19. In one other place *sumer-lida* occurs, in company with words relating to the sea, and it there glosses *malleolus*; but here perhaps *sumer-loda* should be read, and *malleolus* be taken in the sense *shoot, twig* (see *spæc*); cf. *O. swá, swæ[c]. v. swá, swecc.

swáfan (?):—Sió gítsung ðe nǽnne grund hafaþ swearte swǽfeþ (swǽleþ? v. swélan) sumes onlíce efne ðam munte ðe nú monna bearn Etne hátaþ se swefle byrneþ, Met. 8, 46–50. The Latin original has: Saevior ignibus Aetnae fervens amor ardet habendi, which is rendered in the prose version: Manna gítsung is swá byrnende swá ðæt fýr on ðære helle seó is on ðam munte de Ætne hátte, Bt. 15; Fox 48, 29. From comparison of these three passages, it seems that *swáfeþ* should mean *burns*, while the form of the word suggests comparison with *O. L. Ger.* suëvôn *in* berg suëvôt *mons coagulatus*, with *O. H. Ger.* sweibôn *volvere, ferri*, and later English *swayue* in:—He (*the whale that swallowed Jonah*) swenge3 and swayues to þe se bóþem, Allit. Pm. 99, 253. All these verbs denote movement, a meaning which does not seem to suit *swáfan* in the passage where it occurs.

Swéfas, Swéfe; *pl. A Germanic people, the Suevi* or *Alamanni* ('um diese zeit (4th cent.) pflegt an die stelle des alten Suevennamens die benennung Alamannen einzutreten,' Grmm. D. swémman ł *p.* de *To trouble, afflict, grieve*. The verb occurs in this sense in later English:—Ofte hit timeð þat tat leoueste bearn sorheð and swemeð meast his ealdren, H. M. 35, 5. Þe engles beoð isweamed, þat seoð hare suster swa sorhfulliche afallet, 17, 20. Ure Louerd ne mei uor reouðe wernen hire, ne sweamen hire heorte mid wernunge, A. R. 330, 11. Swemyn *molestor, moreo*; sweem, swemynge or mornynge *tristicia, molestia, meror*, Prompt. Parv. 482, col. 1. In A. S. only the compound *á-swémman* (q. v.) is found, apparently with the meaning *to become troubled* or *grieved*. To the instance given under *á-swémman* may be added the following:—Swá Sanctus Paulus cwæþ ðætte God héte ealle ða áswémman æt heofona ríces dura, ða ðe heora cyrican forlǽtaþ *God would bid all those grieve . . .*, Blickl. Homl. 41, 34. Sceolde se mín þearfa áswémman (*have cause to grieve*) æt ðínre handa, Wulfst. 258, 2. Se sceocca sceall áswémman æt ús, gif wé ánræde beóþ on úrum geleáfan, Homl. Skt. i. 17, 203. v. swámian.
